

ShowPro Rings Gate App - Single Horse

A function is available for the paddock master to enter at the gate, the back number is typed into the Add Entry box and when the ADD button is pressed the entry is added in ShowPro. If there are more than one person on the entry a prompt will appear to select the correct rider. If it is a combined class a prompt will appear to select the correct original class.

When a class is selected the entrants are loaded according to any order of go set in the office. The paddock master has the ability to alter the order by dragging items in the list to a new position.

When a horse goes in the ring the paddock master drags that horse from the entrants list to the In Ring position, any entrant already in the In Ring box will be moved to the Gone box.

Entrants can also be dragged to the No Show box if it becomes clear they are not going to show up.

When the last entrant is in the In Ring box a Complete Class button will appear, when this button is pressed all the entrants in the Gone box will be verified in ShowPro as having been judged and the class will be finalized.

9	92	MAGGIE MAY	JENNIFER ALFANO	SUSAN SCHOELLKOPF	
10	19	BOXER	RACHEL MCMULLEN	KEELEY GOGUL	

There is a Lock Order button, this will disable the dragging capability and a button will appear to advance the next entrant into the ring. This is useful at a minimum when orders of go are critical and some may prefer to keep the order locked except when adjustments need to be made.

You can also just click on an order number to put a horse in the ring. You can click the red X to put a horse in the No Shows.

As with all the apps the entire top area can be toggled opened/closed by clicking on the show title. The Option button is also a toggle that opens/closes the options tool bar.
