

## ShowPro Rings Judge's App

The Judges App allows the judge to select a ring, a sub show if applicable, a day, and the class. Once the class is selected the entrant back numbers will be loaded.

The judge has the capability to set how many places are awarded, to create ties, or specify a California split.

The back number icons can be dragged to three Stagger areas as an aid in ranking the entries. They can also be dragged directly to the Placed area or the No Place area. The icons can also be dragged to change their rank in any area that they are in.

Once the judge has the entries ranked the PLACE button will move the proper number of entrants from the Stagger area to Placed and the remaining entrants will be moved to the No Place area.

Once the class is placed the SEND button will cause the results to be posted in ShowPro. In the case of a multiple judged class the judge will be prompted to select himself from the list of judges assigned to the class.

The screenshot shows the 'Country Heir II USEF Premier Show - June 11 - 15, 2014' interface. It includes a dropdown for 'Stonelea Ring', a date selector for 'Wednesday, June 11, 2014', and a class selector for '14) WCHR Green Conformation Hunter Model'. Below these are buttons for 'Options', 'Reset', 'Place', and 'Send'. There are also input fields for '# Places: 8', '# Splits: 1', and 'Tie:' with 'Set' and 'Reset' buttons. The main area is titled 'Placing' and contains a table with columns for Rank, Placed, Stagger, Not Judged, and No Place. The 'Rank' column has a vertical list of numbers 1 through 8. The 'Placed' column is empty. The 'Stagger' column contains back numbers: 91, 787, 816, 819, 21, 19, 1393. The 'Not Judged' column contains back numbers: 1069, 815, 820, 1115, 1320, 1272, 529, 2007, 821, 836, 747, 117. The 'No Place' column contains back numbers: 92, 1075.

Rank	Placed	Stagger	Not Judged	No Place
1		91	1069	92
2		787	815	1075
3		816	820	
4			1115	
5			1320	
6		819	1272	
7		21	529	
8		19	2007	
		1393	821	
			836	
			747	
			117	

As with all the apps the entire top area can be toggled opened/closed by clicking on the show title. The Option button is also a toggle that opens/closes the options tool bar.

Although not shown above, if a class has class specs they are shown for the judge.
