

ShowPro Rings Judge's App - Scores

The scores judges app is a variation on the regular judges app for where entrants need to be placed by score or where judges prefer to place by score.

As scores are entered the entrant icon is moved to the appropriate ranking. Once the cut off has been established entrants will begin spilling over in the "No Place" category.

The judge still has the ability to drag icons around, the score is used only for the initial ranking.

This app has the same options as the regular judges app, there is no "Place" as there is no intermediate stagger function.

Country Heir II USEF Premier Show - June 11 - 15, 2014

Stonelea Ring Wednesday, June 11, 2014

14) WCHR Green Conformation Hunter Model
